INSPIRATION

With stunning views of Clear Lake and the majestic Mt. Konocti, our organically farmed vineyards are perched at elevations of up to 2,300 feet, producing distinctive mountain fruit. The unique combination of volcanic soils, intense sun exposure, and temperature variations result in complex, balanced, and full-bodied wines that embodies both intensity and elegance.

VINTAGE

2023 was an amazing year! Early spring rains soaked the vines, continuing into early summer with three times the usual rainfall. This cooler, late-ripening vintage allowed for longer hang times, resulting in the darkest reds and intense whites we've seen in years. Look out for vintage 2023 - it's going to be one for the books.
