INSPIRATION

With stunning views of Clear Lake and the majestic Mt. Konocti, our organically farmed vineyards are perched at elevations of up to 2,300 feet, producing distinctive mountain fruit. The unique combination of volcanic soils, intense sun exposure, and temperature variations result in complex, balanced, and full-bodied wines that embodies both intensity and elegance.

VINTAGE

The 2024 year began with lower-than-average rainfall in the spring, followed by intense summer heat waves. This resulted in fruit with remarkably concentrated flavors and beautiful profiles. The Reds are dark and complex, the Whites are aromatic and intense. As the complexity and concentration of the fruit reached optimal levels, our crews worked diligently to ensure a timely harvest at peak conditions. The 2024 harvest was short but intense, yielding a fantastic vintage with amazing potential. We're all very excited to share the results with you.
