BOURBON WHISKEY

Our Bourbon Whiskey range is dedicated to applying a classic approach to the creation of Bourbon in the full-flavored style of the late 19th century. To this, we lend 21st century exploration and innovation, for which Cadée Distillery is known, to create whiskies that surprise and delight people seeking great spirits.

Cadée Distillery

YOUR NEW BEST FRIEND

Cadée Bourbon Whiskey is rich in flavor, beguiling and complex. A classic front label design complements a hand drawn image of the Isle of Whidbey on the back.

ABV: 42% / 84 proof
Handmade in small batches on the Isle of Whidbey, Washington.
Aging: Aged in new, charred American oak barrels for a minimum of 12 months.
Nose: Cadée Bourbon Whiskey is rich in flavor, beguiling and complex, yet soft on the palate.
Tasting Notes: A full, rich and balanced Bourbon with flavors of cinnamon, walnut, and allspice. Oak and vanilla undertones imparted by barrel maturtion and the elements of the Pacific Northwest. A handcrafted biscuit quality with hints of chocolate caress the palate as a certain rye spiciness adds flair to the overall taste.

With a long, spicy and satisfying finish, this whiskey is utterly delicious.

A PURE SPIRIT

Whiskey is a spirit made from grain below 190 proof in an open barrel and bottled at no less than 80 proof. Bourbon whiskey is an elaboration of whiskey that requires the use of corn in the grain recipe, no less than 51 percent. It also reduces the distillation proof from 190 to 160. Saturation in the barrel must occur in a new barrel that is charred on the inside and it must be bottled at no less than 80 proof. Bourbon cannot be altered with any color or flavor additives. Only pure water can be added to it once it has been emptied from the barrel.
